

IZZY TRUE

NOPE.

Nope is **Izzy True**'s first full length release. In 2012, Isabel dropped out of school and moved home to deal with mental illness. The record was born out of that experience, and the desire for a cathartic and joyful way to combat those issues. Isabel says of the direction of the album "I've always played weepy, sad sack stuff. I mean I still do, but I consciously started to write songs that would be fun to see live, that would make me feel like a powerful guitar guy. I felt terrible, and playing sad songs all the time didn't help. I was trying to manifest something else." The end result is a rock and roll album which makes space for misery. *Nope* is about magic, loneliness, and learning to like yourself.

Formed in early 2015 in the rural upstate village of Trumansburg, NY, **Izzy True** is Isabel Reidy with dear friends Angela DeVivo and Jon Samuels, and brother Silas Reidy. Isabel teamed up with their brother when the two of them dropped out of college and moved back home in 2012; their collaborations began with a country band called The Realbads, which eventually devolved into straight up rock n roll in Izzy True. Izzy True's first EP, *Troll*, was released on Don Giovanni Records in summer 2015.

In addition to writing music, Isabel makes and self-publishes weird comics. Their music and art exist in the same universe and often revolve around the same characters. Both deal with existential longing and confused, uncomfortable feelings about sex and gender.
